

VIRGINIA CAN DO ITS PART IN TIME OF WAR

Industrial Survey Shows Enormous
Resources of State's Manu-
facturing Plants.

SHOES FOR 1,000,000 MEN

Chairman Myers Furnishes Reports
on 200 Industries in Virginia Ca-
pable of Rendering Real Assistance
in Time of National Emergency.

One Virginia manufacturing concern alone is capable of supplying an army of 1,000,000 men with shoes should this country be confronted with the grim necessity of war, according to the survey made by E. T. D. Myers, Jr., an engineer of this city, who has charge in this State of the inventory of industrial resources being made by the committee on industrial preparedness of the Naval Consulting Board of the United States.

That firm is a well-known shoe manufacturing corporation of Lynchburg, the yearly output of which is something like 3,000,000 pairs, enough to shoe more men than the United States has ever gathered together in an army. Another company operating alkali works at Saltville, valued at \$7,000,000, would be able to render invaluable assistance in the manufacturing of ammunition and powder.

Inventories have been taken by Mr. Myers of 200 firms doing business in Virginia, disclosing most satisfactory conditions from the standpoint of industrial preparedness. The inventory has received hearty support from the manufacturers and the public press in Virginia, and the work is necessary. It has been demonstrated to the satisfaction of those who have undertaken the task that Virginia could do well her part in caring for the men who go out to fight the battles of the country.

MARSHALING OF NATION'S INDUSTRIAL RESOURCES

The story of the mobilization of Virginia's manufacturers for war is the story of the marshaling of the nation's industrial resources. There has been sympathy with the work on every hand. Conditions have been found highly satisfactory. Only a few business men have refused to give the desired information, usually to yield on a fuller explanation of the committee's purpose and the country's needs. The survey is more than 30,000 manufacturing concerns in the United States doing a business of over \$100,000 a year, according to a report of the committee, and all of these are being inventoried, to say nothing of many smaller plants with equipment peculiarly suited to turn out material for the fighting line.

"Although the committee's great industrial inventory has been making excellent progress," says the report, "national conditions recently became such that Chairman Howard E. Coffin sent urgent telegrams to the chairmen of the committee's State boards directing them to make all possible haste to gather the industrial information so vital to the army and navy of the United States. At the same time, Secretary of War Baker detailed five officers of the regular army service, two of them members of the general staff, to the committee's offices in the Engineering Societies' Building, New York, to assist in rushing the work to the limit and to gain immediate benefit for the government of the large amount of data already obtained."

THOUSANDS OF PLANTS HAVE MADE REPORTS

"As a result of the increased vigor of the work of the great army of engineers and chemists under Chairman Coffin and Supervising Director W. S. Clifford, reports are coming in from the field in even greater quantity than before. The engineers and chemists are members of the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers, and the American Chemical Society. The committee is inventing scores of thousands of plants to know exactly how each of them can adapt its equipment to produce the thousands of things, from machine tools to the necessities for the government's use in a national emergency."

Reports from every State that has begun the survey are highly satisfactory. In some instances, there is slight opposition, which is quickly overcome when the nature of the work is fully explained.

Deeds of Love for Ice Mission

Many Acts of Unremembered
Kindness Go to Make Up
Fund for Relief.

From a lawn party held Thursday evening at 204 Fourth Avenue, Highland Park, by four girls—Myrtle Moore, Helen Tucker, Elsie Drake and Virginia McMurtry—the sum of \$13 was raised and turned over to The Times-Dispatch for the benefit of the Ice Mission. Assisting the girls in making the lawn party a success were Messrs. J. P. Thayer, T. L. Moore, G. A. Wingfield, C. E. Britton and Richard Tucker.

The receipts yesterday were \$32, making the total collection for the Ice Mission this summer \$728.45. In the building up of this fund many people have had a hand, and many deeds of love and sacrifice have been performed in order that contributions might be made. It is safe to say that many more such "little nameless unremembered acts of kindness and of love" will be done by the people of Richmond before the summer's close.

With the summer months but half over, and the period of longest and most intense heat probably yet before it is yet too soon to take great pride in the amount of the funds already contributed. For the present the only appropriate sentiments are determination to increase the amount on hand and sympathy for the great mass of the people who need help. All contributions received by The Times-Dispatch will be acknowledged promptly and turned over to the Ice Mission for distribution to those in greatest distress.

Yesterday's contributions were as follows:
Cash \$ 1.00
M. P. P. 5.00
Joseph M. Rybicki, Jr. 1.00
St. Mark's Chapter, Daughters of the King 1.00
B. B. Friend 1.00
Three little boys in Bon Air 7.00
Mrs. Herbert W. Jackson 1.00
J. Edward Martin, 2d 1.00
A successful lawn party 13.00
Received yesterday \$32.00
Previously acknowledged 696.45
Total received \$728.45

RICHMOND MAN NAMED ON RELIEF COMMISSION

Jacob Billkopf to Assist in Distribution
of Funds Among His Race in
Eastern Europe.

Jacob Billkopf, an immigrant who spent in Richmond the first fifteen years of his life in America, and who received his college education here, was recently named as one of the commission to distribute the American Relief funds among the poverty-stricken members of his race in Eastern Europe. He now lives in Kansas City.

Mr. Billkopf is well remembered in Richmond as a man of the finest traits of character, and was popular with all who knew him. Coming to this city as an immigrant, scarcely able to speak a word of English, he has, by persistent effort, become one of the leaders of his race in America and one of the best-known uplift workers in the country.

OMITTED TAXES

Examiner Watkins Reports Large
Sums as Voluntarily Turned In
by Owners.

Examiner of Records Tucker C. Watkins, Jr., of South Boston, who was recently appointed to succeed Examiner James S. Easley, of the Sixth Judicial Circuit, reported yesterday to Executive Assistant Garnett, of the State Tax Board, that omitted intangible property in the amount of \$535,165 has been voluntarily reported to him for taxation by residents of his circuit.

Halifax County led, with omitted intangibles valued at \$350,000. From the city of Lynchburg was reported property valued at \$167,000, and from Mecklenburg County intangibles to the amount of \$58,165.

CRUTCHFIELD'S FRIENDS WANT BOARD TO RETRACT

Unwilling to Face Investigation of
Police Court Methods by
City Council.

HEALTH OFFICERS COMPLAIN
One Inspector Has Reported 120 Vi-
olations of Ordinances Framed to
Protect Public Health and Crutch-
field Convicted in Only One Case.

When it became known yesterday that the Administrative Board had forwarded to the City Council a resolution protesting against Police Justice Crutchfield's attitude toward city officers when they appeared as witnesses, a Jokesmith has spread far beyond the borders of the Old Dominion, at once put their heads together, and it would be made to have the board rescind its action.

Should the resolution reach the Council it is anticipated that there may be an investigation into Police Court methods. Many witnesses, both citizens and officials, have felt the sting of Justice John's levity.

One of the principal complainants against Justice Crutchfield is the Health Department. Sanitary inspectors have frequently complained that they have been unable to secure convictions in Police Court, and add that they are made to appear ridiculous when they appear as prosecuting witnesses.

It is said that the sanitary officers do not summon violators to court until they have given ample warning to remedy any breach of the health regulations. In this connection it was said at the offices of the Health Department that one officer, since he had been in the service, had haled 120 persons to Police Court and had succeeded in having only one of that number fined.

On the docket before Justice Crutchfield yesterday appeared two cases of health violations. J. B. Atkins was charged with failing to make necessary plumbing repairs at 1201 North Twentieth Street, and S. Abramson was charged with committing the same offense at 108 North Nineteenth Street. Both were fined \$5 and costs and both took appeals to the Hustings Court.

MILITIA CORPORAL COMPLAINS TO MAYOR

Another incident of yesterday's Police Court proceedings resulted in Justice Crutchfield being reported to Mayor Ainslie.

The incident was virtually an interruption. A corporal, in full uniform, who described himself as representing Captain I. Branch Johnston, of Battery

C. Virginia Field Artillery, appeared in court.

"Take off your hat," yelled Justice John. "I'm under orders, and I can't," replied the noncommissioned officer. "Orders or no orders, take it off," repeated One John.

"I wouldn't take it off for the President of the United States," was the emphatic rejoinder.

The hat remained on the visitor's head, and he executed an about-face and marched to the office of Mayor Ainslie, on the floor above Police Court. The corporal informed the city's chief executive that he wished to make charges against Justice Crutchfield. He was advised to make any charges he had in view through the usual military channels. At the same time, Mayor Ainslie suggested that the soldier deliver to Justice Crutchfield a letter which he had from his commanding officer. The letter was delivered, but the khaki-clad individual did not appear before Justice Crutchfield and delivered a letter from Captain Johnston.

The soldier's refusal to remove his hat in court was explained in military circles. A hat or cap, when a part of the uniform of any branch of the service is regarded as much a necessity as trousers or jacket. The regulation military salute is the substitution of respect for the removal of the headgear. The corporal followed, when the justice did not recognize the salute with which he was greeted.

PLAN FUND OF \$100,000

Four Laymen of the Methodist Church,
South, Would Help Superannuated
Preachers.

Of special interest to the entire ministry and membership of the Methodist Episcopal Church, South, is the movement which has been inaugurated by four laymen of this church who reside in Charlotte, N. C., to establish an endowment fund of \$100,000 for the support of the superannuated preachers and the widows and orphans of preachers in the Western North Carolina conference. These laymen—J. A. Bell, J. A. Hagood, J. B. Ivey and J. A. Jones—offer to give \$1,000 each to this fund, providing 100 laymen within the bounds of this conference will make similar contributions, or if twenty laymen in the Charlotte district will do so.

The number of claimants in this conference at present is 102, and last year the conference, with a church membership of 106,000, contributed only \$10,000 to the support of these claimants and one individual added \$5,000 to this, making the average appropriation for the support of each claimant only \$148.

The total membership of the Methodist Episcopal Church, South, is 2,000,000, the salary of each bishop of the church is \$4,500 a year, and that of pastors averages \$100 a year, while the amount available for the support of the superannuated preachers and widows and orphans of preachers aver-

**Blue-jay
ends corns**

**Remember
this—
Corns are
Needless**

IT'S a pity to suffer
corns. Millions of
people don't. If a
corn appears, they put
a Blue-jay on it.

Never a pain after
that. In 48 hours the
corn disappears, and
forever.

Why don't you let
Blue-jay prove that?
The way is easy,
gentle, quick. It is sci-
entific, and results are
inevitable.

One Blue-jay is suf-
ficient on 91 per cent
of all corns. On old,
stubborn corns simply
use another.

Why pare corns and
keep them? Why use harsh
methods and risk soreness?
Or ways that don't end
corns?

Apply a Blue-jay and
you know the corn will end.
Never again will it bother.
That is proved a million
times a month.

Corns are inexcusable
today.

Our Proposition: No Cure No Pay

We guarantee to take any case of the drug or liquor addiction
and cure it in from ten days to three weeks, according to the phys-
ical condition of the patient, by painless and harmless remedies,
bearing all expense of treatment, board, room and attendant, if
necessary, while in the Sanitarium, and not ask one cent of com-
pensation for treatment, board or service until the patient is cured
of the addiction and ready to return home. When the patient leaves
the Sanitarium he will know that he is cured, and have no craving
or desire for liquor or the drug. No other institution can, or will,
make this proposition. We challenge investigation.
